Acceptance of Bond Anticipation Note (BAN)

Daniel explained to the board that the bond counsel still advises that the town accept the BAN bid from Bangor savings. The main reason being that the ad that was sent out for the BAN did not include switching banking services, so that should be honored as Bangor did not know Androscoggin would propose that. While the chances were small it would open the town to legal problems as well. **The select board voted 2-0 to accept Bangor Savings BAN bid.**
